HOTSPOTS FIRE PROJECT

Learn about local ecology

Prepare a property plan

Participate in a demonstration burn

Managing fire on your property and across the landscape

If you have bushland on your property this program is for you!

The Hotspots Fire Project enables landholders and public land managers to work together to reduce bush fire risk across the landscape, whilst maintaining and improving biodiversity and protecting Cultural Heritage.

FREE two-day workshop

Landholders from the **Meringo, Bingie, Bergalia and Congo** areas are invited to attend.

Meringo-Bingie Hotspots Fire Project Workshop Series

Discuss risk management and fire ecology

Understand how your neighbours and other land management agencies are managing fire

Receive a large aerial photo of your property to develop your own Fire Management Plan

Participate in field-based exercises and observe a demonstration burn

---
